Mountain	550	555	742	0.9	Warmer	25.9	Warmer
Pacific	256	218	313	17.4	Colder	18.2	Warmer
United States	**404**	**473**	**568**	**14.6**	**Warmer**	**28.9**	**Warmer**

The regional degree day statistics stated in this memo are weighted by gas home heating customers instead of by population.
A heating degree day is a measure of the coldness of the weather experienced, based on the extent to which the daily mean temperature falls below 65 degrees Fahrenheit. A daily mean temperature represents the sum of the high and low reading, divided by two.
