

## Andrew Lu

Vice President, Operations & Engineering Services

Andrew Lu is AGA's Vice President of Operations & Engineering Services. He has worked at AGA for 19 years, holding a variety of responsibilities relating to Pipeline Safety advocacy, Peer Review program, Best Practices program, and the planning and execution of O&E's events and forums. He has also staffed a variety of technical committees and is currently heavily involved in leading AGA's efforts in supporting AGA members' efforts to implement Pipeline Safety Management Systems. Prior to AGA, Andrew worked for Consumers Energy for eight years in a variety of roles in gas utility operations.

Andrew has an MBA and a BS in Electrical Engineering from the University of Michigan, Ann Arbor.
