

Antitrust Compliance Language

(To be used in opening/welcoming remarks at all AGA meetings)

“As you all know, AGA and its members are committed to full compliance with all laws and regulations and to maintaining the highest ethical standards in the way we do business. This commitment includes strict compliance with federal and state antitrust laws. In your program materials, you will find guidelines outlining AGA’s antitrust compliance policy and procedures. Please take a moment to look over those guidelines and please follow them throughout this meeting.”
