Vision

Provide America with essential life-sustaining energy

Mission

Develop and advocate for informed, innovative, and durable policy that fulfills our nation’s energy needs, environmental aspirations and economic potential. Provide state-of-the art solutions for AGA members to safely and securely deliver reliable and affordable natural gas and advanced fuels to homes and businesses across the nation.

Values

**Safety**
Fully commit to advancing initiatives that continuously improve the safety of our industry, our systems, our customers and our employees.

**Innovation**
Imagine and invest in the potential energy and environmental solutions for the future.

**Integrity**
Embrace and embody the highest levels of ethics, accountability, and civility while vigorously representing the interests of our industry.

**Trust**
Be the credible source that provides fact-based analysis and recommendations on behalf of the gas utilities industry.

**Inclusion**
Provide an open and welcoming environment for our members and employees to encourage deliberate debate of opinions. Strive for a workforce that represents the diversity of our members and our country.

**Compassion**
Demonstrate a commitment to serve our communities.
