Oregon	416	237	411	236
Washington	314	198	314	198

^aSee glossary for definition of (cooling) degree day. Division cooling degree days are the weighted average of all states in a region, according to the 2010 population. National cooling degree days are the weighted average of all divisions, according to the 2010 population.

^bCooling season is the period of May through September.

^cThe transference of many weather stations between city locations and nearby airports at some time during the 30-year period has led to the introduction of slight inconsistencies in the average data.
