

## B109 Committee Gas Displacement Meters and Gas Service Regulators

### Roster - August 2023

**Scope:** Accredited Standards Committee B109 is responsible for the development of standards for gas displacement meters, gas service regulators and related devices. Standards apply to establishing acceptable performance criteria for diaphragm and rotary type displacement meters designed for revenue measurement of fuel gas and for gas service regulators. Standards include definitions, construction, performance of both new types and newly constructed meters and service regulators, in-service performance, installation requirements and practices, test methods and equipment.

**Secretariat:** American Gas Association

**Secretary:** Luis Escobar, [lescobar@aga.org](mailto:lescobar@aga.org)
