

TR Number	22-73
Primary Reference	GM 192.7
Purpose	Review comment at the end of GM 192.7 regarding API 5L editions
Origin/Rationale	GM 192.7(b) has a comment regarding the IBR edition of API 5L that may no longer be appropriate since the current IBR editions of API 5L is the 45 th edition, and not the 44 th edition as discussed.
Assigned to	Design

Note: Revisions are shown in **yellow highlight** and **red font**.

Section 192.7

1 GENERAL

1.1 Incorporated by reference (IBR) documents.

...

1.2 Reference to incorporated by reference (IBR) documents in the Guide.

...

1.3 Reference to non-IBR documents in the Guide.

(a) Standards and specifications recommended for use under this Guide, and the names and addresses of the sponsoring organizations, are shown in Guide Material Appendix G-192-1.

1.4 Previous IBR documents.

See Guide Material Appendix G-192-1A for documents previously incorporated by reference in the Regulations.

~~2 API SPEC 5L~~

(b) ~~Operators are cautioned that significant changes have been made between the 43rd and 44th editions of API Spec 5L. Significant changes include pipe dimensions, manufacturing tolerances, chemical composition, welding methods, inspection criteria, and pipe grade naming conventions.~~

~~Note: For additional information regarding the changes, see API's comparison document referenced in API's letter dated August 2008, "Re: Comparison of API Spec 5L 43rd edition and ISO 3183 (2nd ed.) /API Spec 5L 44th edition." Revised edition titled "Detailed comparison of API 5L (43rd) & API 5L (44th) Requirements," printed June 9, 2009 and available at:~~
