Oregon	5,165	5,150	3,469	3,545
Washington	5,378	5,513	3,827	3,796

<sup>a</sup>See glossary for definition of degree day. Division heating degree days are the weighted average of all states in a region, according to the number of home heating customers. National heating degree days are the weighted average of all divisions, according to the number of home heating customers.

<sup>b</sup>Heating season is the period of November through March.

<sup>c</sup>The transference of many weather stations between city locations and nearby airports at some time during the 30-year period has led to the introduction of slight inconsistencies in the average data.
